A professional interface of a website will increase your sales volume is a certainty. But what lies behind the website, Admin panel is no less concern and do you know why Magento Responsive Admin template was created? Admins always want to manage data intelligently and love to see numbers and charts neat and clearly.

A beautiful user interface makes Admin template for Magento 1 on our top-selling products since it released. Hence, our team needs to work hard to release Admin Template for Magento 2 because Magento 2 community is increasing every day. To bring benefits for Magento followers, we packed both of them and 1 package. You only purchase 1 order but get 2 items. That is amazing.
